## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 2, 4-6 and 18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1. For example, the claimed limitation of the molded lens having a second circular optical surface with a diameter larger than the first circular optical surface in combination with the limitation of a molded optical lens having a flat surface section substantially in parallel with a plane including an optical axis of the coupling lens as claimed in independent claim 1, is not taught by the prior art. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

### EXAMINER'S AMENDMENT

The application has been amended as follows: claims 7-17, non-elected without traverse in the Response to Restriction Requirement dated May 5, 2003, have been canceled.
